The K. of P. of the Pythian Sisters and their friends are making arrangements to attend the Damon and Pythias production in Salem Friday evening.

The lodge of Knights of Pythias is partially founded on the story of Damon and Pythias, two Greek warriors, living in all the pomp and glory which radiated through Greece in the height of its day. The great friendship of these two men, and the test to which it is put, is the play with interest. To make this picture whole cities were built, Grecian gardens were constructed and statuary was chiseled. The baths of Greece were duplicated and everything as it should be to give the proper Grecian touch to the production.

Rev. T. W. Mills of Salem says that Marthabaus, or Sunday sickness, is a disease peculiar among church members and so-called Christians. The symptoms vary but never interfere with the appetite; the symptoms never last longer than 24 hours; no physician is ever called; it is always proven fatal to the victim; it is becoming fearfully prevalent and is destroying thousands each year. The attack comes suddenly Sunday; no symptoms or complaints are evident up to Saturday night; the patient sleeps well and wakes with the same feeling, eats a hearty breakfast. About church time the morning attack comes and lasts until after the morning service is over. Then the patient feels better, eats a hearty dinner, goes out for a walk or sits at home and reads Sunday papers. After eating lunch in the evening and about time to go to evening church service another attack comes on and the patient stays at home. Monday morning the patient is up early, feels fine and ready for work until the next Sunday. This disease is very prevalent in Washingtonville. Let us as church members get shed of it and all our places in the sanctuary.
